

ONE OF A KIND

Some horses are gold
and some are bay,
and this one is black
as they say.

Adelantado is his name
he's so innocent never to blame.
He has an arrow on his face
He's one of a kind, because God gave him
grace.

He has a striped little hoof
and two hind socks.
They move left, right, left,
when he walks.

He is a Spanish mustang,
that fits his name.
When we let him graze freely,
he goes off with a bang.

His mane is long,
not rugged and torn.
It was a lot shorter
when he was born.

Back in New Mexico,
he was one of the crew.
He looked in the pockets
of friends old and new.

Tortillas with salsa,
and Mexican rice,
we needed some good
Baca Chica advice.

We tried to give him carrots,
to them he said no.
But when I played with him nicely
he nuzzled my nose.

He is a good pony,
but lunges for hay.
Some horses will nicker at him
and others will neigh.

Round is his rump,
forward are his ears.
He moves quickly like lightning,
eager as a deer.

He is so special,
the one and only,
a gift from God,
the little black pony.

THE SIGN

The scar was the sign
On the left front foot
That told us he was ours

You ask why
Cause the horse that died
Had the same sign
That told us she was ours

The signs all say
He's here to stay
So welcome Snake
We'll call you Nakes
Because you are here
FOREVER

THE RIGHT ONE

i wasn't quite sure when i saw him
if he was the right one
but i'm sure that he is
now that he's been here

on that day we brought him home
my heart was filled with joy
because i knew we had the right one
coming home with us

i can't believe i ever doubted him
the right one
cause Snake will be in our family
til the day he dies

All About My Horse

What I did with my horse. On a
sunny day, I was helping my dad
rope cows on my horse. My
horses name is Dancin Blackbird.
Blackbird is a good horse. Blacky
is a cutting and roping horse. He
is the best horse you would ever
see in your whole life. My horse
is the fastest horse in Indiana.
Blacky can work cows very good.
If he was for sale. I would sell
him for 99,000 dollars. Blacky can
spin very fast if you put your foot
in his side. He will neck rein very
well. He will slide stop if you are
running him. If you are mean to
him. He will be mean to you too.
He can sit if you ask him very
nice. If he was your horse. What
you would do with him. If I was
you. I would get use to him first
before you do any thing with him.
